

# Roche Home 4 IT

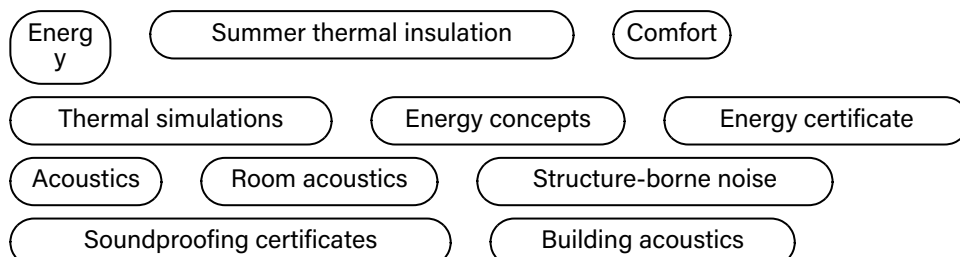

**At the Kaiseraugst site, several IT sites were merged to create Roche’s largest IT site worldwide. The construction of the new, modern IT centre demonstrates, on the one hand, the strategic importance of modern information technology for Roche and, on the other, a commitment by Roche to the Basel region. The “Home for IT” consists of four modern office buildings hosting flexible workstations for around 1300 employees.**

## Info

Object	Roche Home 4 IT
Location	Basel
Year	2014 - 2018
Type	New construction
Client	F. Hoffmann-La Roche AG
Architect	Nissen Wentzlaff Architekten
General planning	Emch+Berger ImmoConsult AG, Basel

## Our services

Building physics

Construction supervision

Thermal protection

3D simulations

Flow simulation
