Portrait: Worked on construction sites after completing an apprenticeship as a plumbing fitter. Studied in Lucerne and worked for 14 years as an engineer for heating, ventilation and air-conditioning technology (HVAC). After a one-year hiatus, he studied building physics at the University of Applied Sciences and Arts Northwestern Switzerland. Employed at Gartenmann Engineering in Zurich since 2017 with a focus on acoustics. In his free time, he likes to kick a ball around or sing tunes.
