Portrait: After completing his apprenticeship as a mechanical engineer, he worked as a sound engineer. Studied electrical engineering at Bern University of Applied Sciences. Works as an electric acoustician in audio and hearing aid development. Joined Gartenmann Engineering in Bern at the end of 2017 and deals with acoustic topics such as room acoustics, sound insulation and noise. Enjoys spending leisure time with the family, on a bike, in hiking boots, in the snow, in a camping bus or in the garden.

Career:	seit 2017	Projektleiter Akustik <i>Gartenmann Engineering AG, Bern</i>
	2013 - 2017	Elektroakustik Ingenieur <i>Bernafon AG, Bern</i>
