**Portrait:** Qualified structural draughtsman; worked for two years as draughtsman and site manager. Part-time degree in technical building services engineering at Bern University of Applied Sciences. Since then, building physicist/energy consultant, expert in special building physics challenges and claims. With Gartenmann Engineering since 1993. Interested in damage-free planning and construction that is as straightforward as possible. Member of the STV + SwissExperts chambers of experts. Has a penchant for Nordic countries and continues to train in therapeutic bodywork as a change from engineering.
