Portrait: High school diploma and first degree in design and media technology, as a basis for the trinational Bachelor's degree in Civil Engineering at the Fachhochschule Nordwestschweiz (University of Applied Sciences Northwestern Switzerland). The programme of studies included: a year abroad at the IUT Robert-Schumann (Université de Strasbourg), a two-month internship as a bricklayer, as well as a year at the Karlsruhe University of Applied Sciences. She attended lectures in German, French and English. Afterwards a practical semester as a construction manager.
 Her spare time includes a lot of voluntary work and sports.
