

Jennifer Elmiger
ES-T Construction and
Architecture Technician
Fire protection specialist with federal
certificate/VKF
+41 31 533 06 19
j.elmiger@gae.ch

Portrait: Certified structural draughtswoman with important knowledge in the construction industry and architecture. Immediately after completing her apprenticeship, she switched to construction management and also trained as an HF technician in construction planning and architecture and then as a fire protection specialist FA/VKF. For family reasons, moved from her native canton of Vaud to the canton of Berne, and since then has worked as a project manager in fire protection. In her spare time she likes to relax in the water, in the mountains, leisurely reading, or drawing tattoos.
