Portrait: Grew up in the Zurich Oberland, completed an apprenticeship as a carpenter and gained professional experience on the construction site. Full-time studies at the Biel School of Timber Engineering to become a TS Timber Construction Technician. Stations in timber construction companies as apprentice trainer, project manager and managing director, then training as fire protection specialist VKF in a timber construction engineering office. In addition to his job, he works as an examination expert for further training as a foreman and foreman for Holzbau Schweiz. Spends his free time doing lots of sport - badminton, beach volleyball, on his bike or inline skating.
